Importance of homoeopathy in Oncology

Other healthcare systems

Be aware of homoeopathy

European standards

Common program validated by peers in Europe (CECN)

In the future: European Standards (CECN)

In order to protect patients from inappropriate practices, the complementary title of homoeopath should be reserved in Belgium to

A Homeopathic remake of the Royal Degree (in place properly)

The delivery of the homoeopathic medicine will require a licence in pharmacy and for all doctors

In the future, homoeopathy must be put at its true value

Important of homoeopathy in epidemics

The role of consultant homoeopath in non-homeopathic practice should be put at its true value

Importance of the European Union

Delivery of new homoeopathic medicines

Conclusion of neglecting homoeopathic medicines

European standards

Quality and safety standards must also enter products of traditional confounders and similar to these drugs

In the future the profession must have all the necessary remedies to serve all the patients who turn to them

The European Standard has been adopted by CEN the 4th of Augustus 2016.

In Belgium, the standard has been validated and Belgium Guttate the 4th of January 2017

Services of Medical Doctors with additional qualification in Homeopathy (MQQ)

Requirements for health care professionals or Homeopathy (MQQ)

In the future, Homeopathy (MQQ)
The future of the profession

- European directive
- Homeopathic use
- Importance of the RemedyBank
- Collaboration with FHMP
- Availability of starting materials
- New homeopathic medicines
- Proving
- Confirmation of existing homeopathic medicines

In the future prescribers must have all the necessary remedies to cure all the patients who turn to them.

Quality and safety standards must also take account of traditional confirmations and checks of these drugs.

The role of competent pharmacists in homeopathic preparation should be put at its true value.
The future of the profession

Common program validated by peers in Europe (ECH)

This European Standard has been adopted by CEN the 6th of Augustus 2016. In Belgium, the standard has been published in the Belgian Gazette the 6th of January 2017

Services of Medical Doctors with additional qualification in Homeopathy (MDQH) - Requirements for health care provision by Medical Doctors with additional qualification in Homeopathy
The future of the profession

In order to protect patients from inappropriate practices, the complementary title of homeopathic competence will henceforth be reserved in Belgium to...

This will also have implications for the future teaching of homeopathy to these professions within a framework set by the Law.

It is urgent that the specialized ministerial committee meet in order to put this Royal Decree in place properly.

Homeopathy has its place inside Public Health.

The delivery of the homeopathic medicine will however remain free in pharmacy and for all doctors.

Importance of Homeopathy in Oncology

Importance of homeopathy in epidemics!
The future of the profession

should be **promoted** and **financed** where possible in collaboration with the universities which are interested in these research projects, taking into account the **specificities** of this practice, such as the **individualization** of treatments and the **law of similarity**.
The future of the profession

- Then we can hope that new doctors, dentists, and midwives will be interested in the study and practice of homeopathy.
- Patients who wish to use homeopathy as complementary or alternative therapies are too numerous for the number of professionals in place today.
- The results that have been presented today are proof that this approach makes sense and that it is necessary to go beyond preconceived ideas.
- Hence the need for
  - Strong and firm Professional Union
  - Effective patient association
  - Association of interested pharmacists

Go join these organizations that work tirelessly for the future to be worthy of this great tradition.
